

BIN MAXIMISER FOR 1,100 LITRE BIN

A game-changer for businesses managing waste from 1,100 litre bins, the Bin Maximiser is designed to significantly reduce the volume of bulky waste by up to 75%. With a powerful 4:1 compaction ratio, this robust machine helps users cut waste collection costs, optimise storage space, and maintain a cleaner, safer working environment.

It is a fully enclosed system preventing vermin access, improving hygiene, and ensuring compliance with health regulations, while features like the bin full indicator and automatic cycle streamline waste handling for maximum efficiency.

Recommended for fast food outlets, hotels, canteens, hospitality, and facilities management.

FEATURES

Automatic baling cycle for effortless waste compaction.

Rapid 35-second cycle.

Powerful 4:1 compaction ratio - reduces waste volume by up to 75%, cutting down on collection frequency and costs.

Low 65dB noise level for minimal disruption in any environment.

A Smart Bin Full Indicator – know exactly when bins are ready for collection.

A Base Lift Mechanism safeguards bins and wheels, extending their lifespan.

SPECIFICATIONS

- ✓ Compaction Force up to 2.5 Tonnes
- ✓ Dimensions: 2.01m H x 1.49m W x 1.38m D
- ✓ Fill Opening: 1.02m W x 0.53m H
- ✓ Bin Weight: Up to 250 Kilograms
- ✓ Cycle time: 35 Seconds
- ✓ Power: Runs on a standard 220V single-phase supply with a low
- ✓ 1.5kW motor
- ✓ IP65 Standards Compliant
- ✓ Automatic Bin Full Indicator
- ✓ 24 v User Controls
- ✓ Fully Enclosed

OPTIONS

- 110 Volt
- Fully Galvanised
- Electro Mechanical
- 660 Litre Bin
- Remote Monitoring
- Weighing System
